

Talking teeth

Calling all parents, families and carers with little ones under five years of age!

The **Early Childhood Dental Program** is a Statewide Project that will provide **universal access to child friendly oral healthcare** to children under five across Western Australia.

We want to hear from you about taking care of young smiles! **Host a chat and you and up to nine guests could grab a \$50 voucher to use.***

What are Kitchen Table Conversations?

Kitchen table conversations are, just like having a chat with your friends and neighbours around your kitchen table. But they can be at your house or anywhere you all feel comfortable.

The main idea is to get together and share stories, thoughts, and experiences with each other.

How to register:

- Scan the QR code
- Pick a day and time that suits you best (before the 30 November)
- Look out for an email confirming the details

How will I be supported as a host?

Once you've signed up, our Engagement Coordinator will reach out to you. They'll chat to you about how to host a kitchen table conversation. You will be given a comprehensive handbook too. It's got information about the Early Childhood Dental Program and covers all the steps to get ready, lead, and provide feedback about your session.

Remember, all hosts who have signed up with the Engagement Coordinator and their groups of up to nine folks for each session will be able to get a **\$50 digital gift voucher*** once they've shared their feedback.

Contact us

If you have any questions or need further information, feel free to contact us at ECDP.Commissioning@health.wa.gov.au

*Registered hosts and up to a maximum of nine guests per session are eligible for a \$50 voucher upon providing a completed Kitchen Table Conversation report to the Early Childhood Dental Program project team by 30 November 2023. Limits apply.
