

Continuity of Care Experience

Hello and congratulations to
all expecting parents!

I'm Kate, a Registered Nurse and I am currently in my first year studying a Graduate Diploma of Midwifery at the University of Notre Dame Fremantle, looking to provide extra support to expecting parents throughout the continuum of their pregnancy.

As a part of my learning I'll need to follow 10 pregnant women (**35 weeks or less**) in a continuity model of care, meaning I will support you and your family throughout the whole of your pregnancy journey. I will be an extra support or a familiar face throughout your journey and I will be under direct supervision of your Midwife, Obstetrician or General Practitioner.

What the Continuity of Care Experience entails:

- Attending a minimum of **4 Antenatal appointments**
- **Support during labour and birth**
- Attending a minimum of **2 Post-natal appointments**

Location

I am based in Attadale but am very happy to travel for appointments and birth.
